Mateen pro Co Ltd is a consultant IT based company that has invested much of its resources and time in developing an online corporate training platform called "Mateen Academy".

Mateen Academy case study method enables learners to study using real-world examples and experience. Practitioners share challenges they've faced in real world. As the story in the video unfolds, the learner is able to leverage course concepts, vital tools and frameworks, and the diversity of our professionals' peers' perspectives to analyze the problem and determine a path forward.

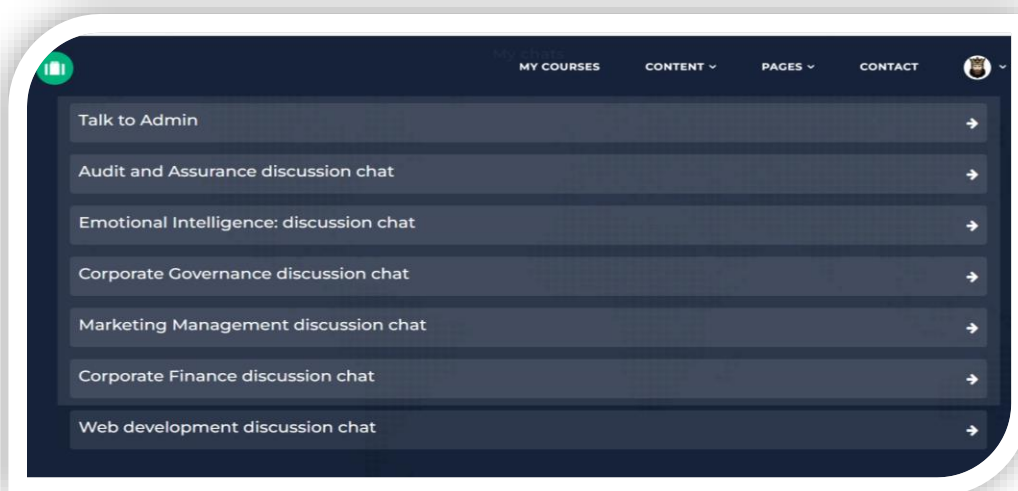

The platform helps learners to expand professional skills and engage with a wide network of professionals through our flexible, online courses.

The learner is Immersed in a dynamic, interactive learning experience engaged in a new activity every end of the topic, module and applies knowledge through polls, quizzes, and problem-solving exercises designed to accelerate and reinforce learning.

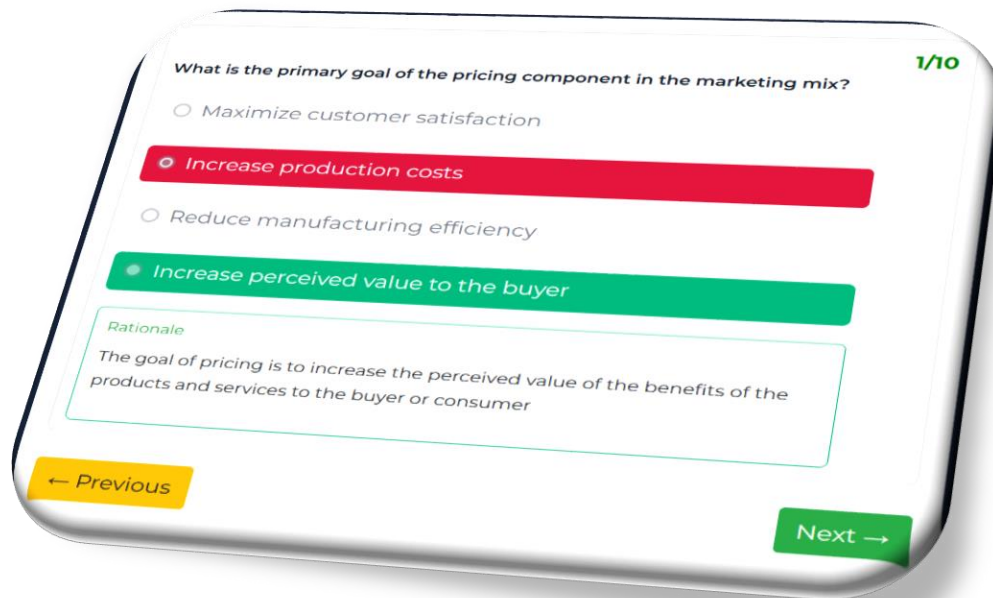

The platform enables the learner to exchange ideas with classmates, broaden the subject perspective, and challenge his/her worldview on the classroom chats with practitioners.

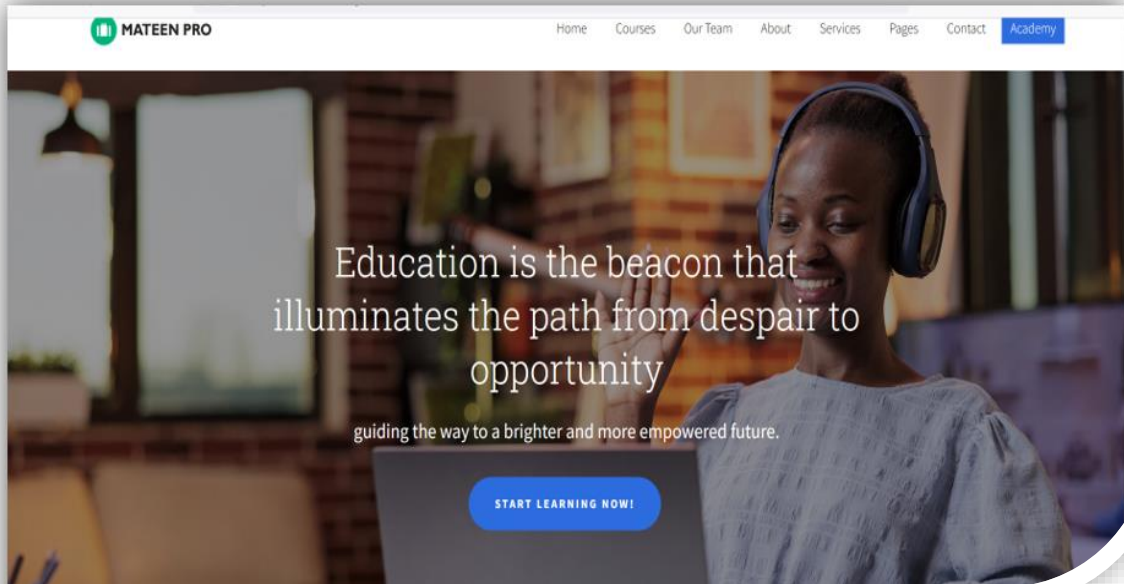

Any company or organization can Partner with Mateen Pro co ltd to support flexible learning to its staff and create unique continuous educational opportunities. The

Mateen pro platform gives an edge in facilitating distance learning and integrating academic theories with practitioners. This is all possible using your mobile phone.

Join the Mateen global community of professionals. Learn from and network with peers before, during, and after your course. Ask questions, collaborate, give feedback, and share experiences and expertise across industries to grow or transition your career. You'll build lasting connections that support you wherever life takes you next

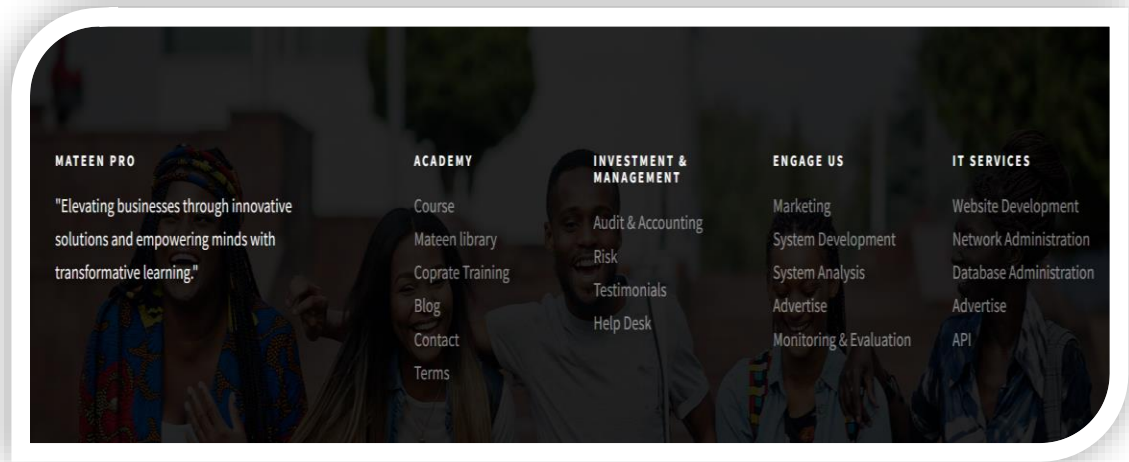

How it works:

1. Mateen pro co ltd partners with credible universities and professional bodies to issue certificates to individuals who have completed short course training on our corporate training platform called “**Mateen Academy**”
2. Short courses are crafted by either Mateen pro experts, (international courses) or academic institute in partnership with Mateen Pro Co Ltd
3. The learner is charged a small fee to access the platform and to cater for the certificate. A company can negotiate for customized trainings
